

Q1: What is JO PRINT and what are its main services?

A1: JO PRINT is a leading digital platform in Jordan that aims to simplify the academic journey for students by connecting them with various academic service providers. Its main services include:

- **Printing and Delivery:** Students can upload their files (PDF, DOC, DOCX, PPT, PPTX, XLS, XLSX, JPG, PNG), choose printing options (e.g., number of copies, paper type, binding, color, single/double-sided), and have them printed and delivered to their specified location or pick them up from a nearby JO PRINT affiliated print shop.
- **Book Summaries:** The platform offers comprehensive summaries of school and university textbooks and study materials, prepared by specialists to save students time and effort. These summaries cover various subjects and academic levels.
- **Specialized Tutors:** Students can connect with experienced tutors in various fields for private lessons, available both in-person and online.
- **Online Store:** JO PRINT also features an online store offering customized products such as printed T-shirts, graduation gifts, personalized notebooks, and mugs.

Q2: How does the printing service work on JO PRINT?

A2: The printing service on JO PRINT follows a simple and efficient four-step process:

1. **Upload Files:** Students upload the documents they wish to print in various supported formats.
2. **Select Printing Options:** Users then choose their desired printing specifications, including the number of copies, paper type (e.g., A4 normal, A4 glossy), binding options (e.g., stapling, spiral, luxury binding), color options (black and white or color), and single or double-sided printing. Additional options like adding a cover, page numbers, or a table of contents are also available.
3. **Easy Payment:** Students can select from multiple secure payment methods to complete their order.
4. **Receive Order:** The printed materials are then delivered to the chosen location or made available for pickup at a selected print shop.

The platform provides a detailed order summary including printing cost, binding cost, delivery fees, sales tax, and the total amount.

Q3: What payment methods are accepted on JO PRINT?

A3: JO PRINT offers a variety of secure and convenient payment methods for completing transactions:

- **Credit/Debit Cards:** Payments can be made using bank cards (Visa, Mastercard), with all card information encrypted and secured. JO PRINT emphasizes that it does not store card information on its servers.
- **E-wallets:** This includes popular local e-wallets such as Zain Cash and Orange Money, and JoBaq wallet. For e-wallet payments, a notification is sent to the user's e-wallet application for confirmation.
- **E-Fawateercom:** As the official electronic payment service in Jordan, E-Fawateercom allows payments by sending a verification code to the phone number registered with the service.
- **CliQ:** Payments can also be made using the CliQ card.
- **Cash on Delivery:** For printing and delivery services, customers have the option to pay in cash upon receiving their order.

All transactions on the platform are stated to be secure and encrypted.

Q4: How can print shops join the JO PRINT network, and what are the benefits?

A4: Print shops can join JO PRINT's network by completing a registration process that involves providing basic information, uploading required licensing documents (e.g., trade license, tax registration certificate), and undergoing a verification and approval process by the JO PRINT team. The benefits of joining the JO PRINT network include:

- **New Customers & Increased Revenue:** Access to a wide base of potential customers (students and clients) across Jordan, leading to increased sales and diversified income streams.
- **Advanced Management Tools:** A comprehensive dashboard to manage orders, payments, and delivery tracking efficiently, with features like order status updates, financial reports, and inventory management.
- **Marketing and Support:** Print shops appear in search results for nearby customers, benefit from ongoing marketing campaigns by JO PRINT, and receive 24/7 technical support for higher-tier packages.
- **Secure Payment System:** A streamlined payment system that handles online and cash-on-delivery payments, with weekly, bi-weekly, or daily financial settlements depending on the chosen package.

JO PRINT charges a commission ranging from 6% to 10% on each order, with registration being free.

Q5: What types of products are available in the JO PRINT store?

A5: The JO PRINT store offers a wide range of customized products, primarily focusing on personalized items and gifts. These include:

- **Printed T-shirts:** Customizable T-shirts.
- **Graduation Gifts:** A selection of items suitable for graduation presents.
- **Customized Notebooks:** Personalized notebooks.
- **Printed Mugs and Accessories:** Customizable mugs and other related accessories.
- **Printed Phone Cases:** Phone cases with custom prints.
- **Printed Tote Bags:** Customizable fabric tote bags.

The store also features special offers, such as a 15% discount on all graduation gifts with a specific promo code. Products can be filtered by categories, price range, and sorted by popularity, new arrivals, or price.

Q6: How does JO PRINT ensure the quality of its book summaries and tutoring services?

A6: JO PRINT ensures the quality of its book summaries and tutoring services through several measures:

- **Book Summaries:** Summaries are "prepared by specialists" for academic subjects, indicating expert involvement in their creation. They are designed to be comprehensive, covering all required units with easy-to-understand explanations, illustrative examples, and solved exercises. Some summaries are also "approved by the Ministry of Education."
- **Tutoring Services:** The platform connects students with "experienced tutors" and "professional teachers in various fields." Tutor profiles include their qualifications (e.g., PhD, Master's, Bachelor's), years of experience in teaching and research, and areas of specialization. The platform displays student reviews and ratings for tutors, such as a 4.9 rating for Dr. Mohammad Al-Omari in Theoretical Physics. This transparency allows students to choose highly-rated and qualified instructors.

Q7: What are the main roles of users on the JO PRINT platform?

A7: The JO PRINT platform is structured around three main user roles, each with specific functionalities and permissions:

- **Student (Client):** This is the end-user who requests academic services. Their functions include creating a personal account, browsing available services and providers, placing orders for summaries, printing, or academic support, uploading files, tracking order status, making electronic payments, communicating with providers, and rating services and providers.
- **Print Shop (Supplier):** These are registered printing and delivery service providers. Their roles involve creating a supplier account (subject to admin approval), managing their profile (description, photos, working hours), defining and managing services and prices, receiving new orders, updating order statuses, communicating with students, and viewing profit and payment records.
- **Site Administrator (Admin):** This role has overarching control and oversight of all platform aspects. Responsibilities include managing all users (students and suppliers), approving new supplier registrations, supervising orders, resolving disputes, managing static website content (like "About Us" and FAQ pages), viewing comprehensive reports and statistics (profits, order count, new users), and managing system settings (e.g., commission rates).

Q8: How can a customer track their order on JO PRINT?

A8: Customers on JO PRINT can easily track their orders using a dedicated "Track Your Order" feature. They need to enter their order number or tracking code to view the status. The tracking system provides real-time updates on the order's progress, including:

- **Order Placed:** Confirmation of successful order placement.
- **Order Received by Service Provider:** When the print shop or tutor receives the request.
- **In Process:** The order is being processed.
- **Printed:** For printing orders, this indicates the printing is complete.
- **Out for Delivery:** The order is on its way to the customer, including the estimated time of arrival and details of the delivery agent (e.g., name, car number).
- **Received:** Confirmation of order delivery.

The platform also allows customers to share the tracking link, contact customer support directly via phone or email, or request a callback. Detailed order information such as order number, date, estimated delivery time, number of pages, copies, binding type, and total amount are also accessible.
